CONSENT FORM

To Our Patients:

Chiropractic examination and therapeutic procedures (including spinal adjustment, heat application, cold application, and manual muscle therapy) are considered safe and effective methods of care. Occasionally, however, complications may arise. Any procedure intended to help may have complications. While the chances of experiencing complications are small, it is the practice of this clinic to inform our patients about them. Side effects include, but are not limited to, soreness, inflammation, soft tissue injury, and temporary worsening of symptoms. More serious complications are extremely rare and their association with spinal adjustments (manipulation) is debated. These complications include injury to the arteries in the neck which may be associated with stroke and serious neurologic impairment, injuries to the spinal discs, and spinal fractures. Serious complications are estimated to be in the range of .5 – 2 incidents per million adjustments for adjustments of the neck, and 1 per million for adjustments of the low back.

I have read and understand the above statements regarding treatment side-effects. I also understand that there is no guarantee or warranty for a specific cure or result.

_____ I hereby grant permission for picture or video(s) to be used by Pure Balance Chiropractic for education purposes of the practice, on the website or via social media and internet forums. I understand that this agreement releases Dr. Amy Nong with Pure Balance Chiropractic and the producer her educational materials from any legal responsibilities arising from the use of said pictures or video(s) in the aforementioned capacity.
